REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: applicant recites a memory marker for a gravesite comprised of a layer of flexibly resilient transparent plastic formed into a pair of similar members, each member having a cavity defined by a generally planar bottom surrounded by a wall, each bottom having a shallow outer indentation defining a frame between the edges of the indentation and the surrounding wall. A living hinge attaches an edge of one member to an edge of the other member. One member is swingable about the living hinge for removable snug nesting into the cavity of the other member for holding indicia between the planar bottoms within the frame. The device is further comprised of means, in the form of a stake, attached to one of the members for insertion into the ground at a gravesite.

The prior art made of reference, taken singularly or in combination, does not adequately disclose the features recited in the instant claims. Specifically, the prior art does not show two members, attached together by a hinge and formed to nest together when one member is rotated about the hinge to mate with the other member.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
